公司简介 Company Profile

山西原生肽科技有限公司, 位于山西榆社, 是中西部地区首屈一指的生命科学产业示范基地, 也是山西省重点支持的高新技术企业, 业务涵盖肽产品全产业链, 包括原料培育、科技研发、加工生产、物流运输等。公司主要为泓九科学院科研成果转化, 科技应用创新实践提供支持与服务。依托强大的科研力量, 通过创新链、产业链、资本链联动, 加速科技与经济深度融合, 促进科技成果向实际应用需求转化, 形成“政、产、学、研、用”协同创新生态体系, 无缝贯通“原料种植养殖到产品销售终端”各个环节, 以规范化管理、标准化质控, 铸就一流产品品质。

Located in Yushe, Shanxi Province, Shanxi Primitive Peptide Technology Co., Ltd. is a leading demonstration base of life science industry in the midwestern regions, and it is also a high-tech enterprise emphatically supported by the Shanxi government. Its business covers the entire industrial chain of peptide products, including raw material cultivation, technology R&D, processing and production, logistics and transportation, etc. The company is mainly transformed from the scientific research achievements of the Honine Academy of Sciences. Technology application innovation practice provides support and services for the company. Relying on its strong scientific research capacity, the company accelerates the deep integration of science and technology and economy through the linkage among the innovation chain, the industrial chain, and the capital chain. The company promotes the transformation of scientific and technological achievements to the actual application demand, and forms the "politics, production, learning, research, and further use" collaborative innovation ecological system seamlessly through each link of "raw material planting and breeding to product sales terminal," so as to standardize management, regulate quality control, and create the first-class product quality.

◆ Excellent Quality Comes From Powerful Strength

原生肽小镇 Protopeptide Town

- 2016年建设原生肽产业园，打造多条自动化高科技生产线，集“科技、健康、生态”于一身的原生肽小镇诞生。小镇成形规模3000余亩，集文化旅游、休闲观光、高科技体验等众多项目于一身。内设生产中心、科研中心、科学培育基地与生活服务中心多个机构。这里土层深厚，土壤肥沃，有机质含量更高，营养元素含量充足，是各种作物的优质产地，生长在这里的动植物资源营养价值高、绿色无污染。每一方土地都经过精心的治理和维护，最优质的原料也就在这片沃土上茁壮生发。

In 2016, the primary peptide industrial park was built to create a number of automated high-tech production lines, and the primary peptide town, which is a combination of “technology, health, and ecology”. The town has a scale of more than 3,000 acres and integrates the cultural tourism, leisure and sightseeing, high-tech experience and many other projects. There are many institutions, including the production center, scientific research center, scientific cultivation base, and living service center. The park has unique soil with deep layers and fertile resources, its high organic matter content and sufficient nutrition make it a perfect place for crops, where the animal and plant resources could have higher nutritional value while keeping green and pollution-free. The organic matter content is higher, the nutrition element content is sufficient, is the high-quality producing area of all kinds of crops, the animal and plant resources growing here have high nutritional value and are green and pollution-free. Each side of the land has been carefully managed and maintained, and the best quality raw material grew here.

- 产业基地荣膺ISO9001质量管理体系认证与HACCP食品安全管理体系认证。公司实施超前产业部署，抢占大健康产业制高点，充分发挥整体生态农业优势，依托绿色生态资源发展与特色农业精深加工、打造绿色健康食品基地。企业现已成为集产品研发、规模制造、仓储物流、营销培训、旅游观光、康复理疗为一体的综合化产业园区。

The industrial base won the ISO9001 quality management system certification and HACCP food safety management system certification. The company implements the advanced industrial deployment, seizes the commanding heights of large health industries, gives full play to the overall advantages of ecological environment. Relying on the development of the green ecological resources, and intensive processing of characteristic agriculture, the base is establishing a foundation of green and healthy food. The enterprise has become a comprehensive industrial park integrating product R&D, scale manufacturing, warehousing and logistics, marketing training, tourism, and sightseeing and rehabilitation physiotherapy.

- 公司秉持“科技为第一生产力”的经营理念，凭借领先的科研和生产水平，致力于为客户提供创新型肽产品和完善的支持与服务。

The company adheres to the management concept of "science and technology are the first productivity," and is committed to providing customers with innovative peptide products, and perfect support and services with the leading scientific research and production.

- 展望未来，奋进中的原生肽科技守正出新、行稳致远，在做好动植物培植培育基地建设的同时不断向生态旅游、健康养老、旅居养生、科普观光等方向纵深发展，商业价值空间非常巨大，社会效益与经济效益前景十分广阔。

Looking forward to the future, the progressive primary peptide science and technology stay on the right track and put up with new ideas and move forward steadily. While working on the construction of animal and plant plantation, and the cultivation base, the base will continue to boost in the direction of ecotourism, healthy eldercare, living and health preservation, science popularization and sightseeing, etc. The base has a huge business value space and a bright future of social and economic benefits.

Protopeptide town

◆ Excellent Quality Comes From Powerful Strength

科研实力 Scientific Research Strength

20年科研经验, 48项专利技术 20-year experience of scientific research, 48 technology patents

研发团队在生物肽领域研究20年, 掌握48项国家发明专利技术, 成功研发出多种新型肽产品, 实现在医疗、保健、美容、食品行业中的广泛应用。先后获得国家科委金奖、美国爱迪生国际发明博览会国际最高金奖、美国爱因斯坦派拉蒙金杯奖等诸多奖项, 在国际健康研究领域拥有强大的权威性与巨大的影响力。The R&D team has studied biological peptides for 20 years, mastering 48 national inventions patented technologies. The team has developed a variety of new peptide products, which are widely used in the medical, health, beauty, and food industry. The team has won many awards, such as the National Science and Technology Commission Gold Award, the Edison International Invention Expo International Gold Award, the Einstein Paramount Gold Cup Award and so on, all of which have a strong authority and great influence in the field of international health research.

专业合作, 创新科技 Professional cooperation, innovative technology

强强联合各界顶尖资源, 与中科院、哈佛大学、太原理工大学等海内外多家权威科研机构、知名学府、全国高等院校达成技术合作关系。通过不断创新科研成果, 为客户创造新价值。

The company is cooperating with top resources from all walks of life and reaching a technical cooperation relationship with the Chinese Academy of Sciences, Harvard University, Taiyuan University of Technology and other authoritative scientific research institutions at home and abroad, to create new value for customers through continuous innovation of scientific research results.

优质原料 High quality raw materials

拥有3000余亩科学培育基地, 特聘农业专家全程管理把控, 采用现代生物组培技术及生态立体农业模式, 确保原料优质、绿色、纯天然。寻遍全球优质原料, 通过严格的工程审核、质量评估和财务分析, 选择优质供应商。根据目标市场的相关法规和客户需求, 确定并筛选适合的产品质量标准。The company has more than 3,000 acres of scientific cultivation base, employing agricultural experts to manage and control the process, and adopting the modern biological tissue culture technology and the ecological three-dimensional agricultural mode to ensure that the raw materials are high-quality, green and natural. The company has searched the global high-quality raw materials and selects high-quality suppliers through strict engineering review, evaluation, and financial analysis. According to relevant regulations and customer requirements of the target market, the base determines and selects appropriate product quality benchmarks.

美国FDA权威认证

国际IFRC-halal认证

国际品质 International quality

小分子肽自动化高科技生产线, 通过了多项国际及国家认证, 包括ISO9001国际质量管理体系认证、HACCP食品安全管理体系认证, 切实保证了原料安全。整个生产链严格执行国际食品安全高标准, 为客户提供世界级的食品安全保障。原料(核桃肽、火麻仁肽、海参肽、鸡内金肽)已经通过了美国FDA权威认证、国际IFRC-halal(清真)认证。

The high-tech production line of the small molecular peptide has passed a number of international and national certification, including the ISO9001 international quality management system certification, and HACCP food safety management system certification, to effectively guarantee the raw material safety. The whole production chain strictly implements the international food safety high standard, provides the world-class food safety guarantee for the customers. Raw materials (walnut peptide, hemp-kernel peptide, sea cucumber peptide, chicken gold peptide) have passed the United States FDA authoritative certification and international IFRC-halal certification.

发明专利 Invention Patent

◆ Tethnology Innovation Process Value By Innovation

人参低聚肽粉
Ginseng Oligopeptides Powder

具有免疫调节作用、抗疲劳作用、抗衰老作用、改善性功能作用、改善肝功能等作用

This product has multiple functions, it can immunomodulatory action, antifatigue effect, anti-aging effect, improving sexual function, improve liver function

鲜牛骨胶原蛋白肽粉
Bovine Bone Collagen Peptide Powder

补充骨骼营养, 预防骨质疏松, 缓解关节疼痛, 促进伤口愈合, 提高免疫力, 修复软骨细胞。

The product has quite brilliant effects on bones. In addition to supplementing bone nutrition, preventing osteoporosis and relieving joint pain, it can also be used for promoting wound healing and repairing cartilage cells. Same as other peptide powder products, it also has ability in improving your immunity.

牦牛骨胶原蛋白肽粉
Yak Bone Collagen Peptide Powder

促进消化吸收、增强免疫、降血压、降胆固醇、抗氧化、缓解疲劳

This product will suit you when you are suffering from hypertension and cholesterol. If you consume this product, you will see your immunity is improved, and fatigue is relieved. In addition, you will have a better digestive system and stronger abilities of anti-oxidation.

牡蛎肽粉
Oyster Peptide Powder

固肾益精, 改善男性功能, 抗疲劳, 促进消化吸收, 提高免疫力, 辅助降血压。

This product can strengthen kidney by tonifying essence, and improve male reproductive function. In addition, it is anti-fatigue and a good promoter of digestion and absorption, and a good supplement to hypertension. Same as many other peptide powders, it has ability in improving immunity.

鸡内金低聚肽粉 Chicken's Gizzard-membrane Peptide Powder

调节脾胃、改善肠道功能、促进肠道蠕动、改善便秘、提高免疫力、抗氧化。
This product is set for your digestive system, with the capacity of regulating your stomach and intestine, and improving your intestinal function through stimulating intestinal peristalsis. It also works as a remedy for constipation. Furthermore, you can count on this product to boost your immune system and improve the anti-oxidation.

海参肽粉 Sea Cucumber Powder

防癌抗癌,美白、延缓皮肤衰老、改善糖尿病、提高免疫力、改善药物性肝损伤、预防动脉粥样硬化。
Through promoting the liver glycogen storage and enhancing exercise endurance, this product has the anti-fatigue effect. It also has ability in improving immunity, inhibiting cancer cells, and preventing atherosclerosis. If you want to delay your skin age and make it whiten, you can also turn to this product.

火麻仁低聚肽粉 Semen Cannabis Peptide Powder

益肠胃,消炎,辅助降血脂,降血糖,抗疲劳,提高免疫力,抗氧化,延缓衰老。
This product has multiple functions. First, it can invigorate your digestive system, which will help your digestion and absorption. Second, it benefits all kinds of person by relieving fatigue, improving immunity, and assisting anti-aging. Also, it can help you in hypolipidemic, hypoglycemic, anti-inflammation and anti-oxidation.

藜麦米低聚肽粉 Quinoa Oligopeptide Powder

改善酸碱平衡,保护心血管,全营养植物蛋白肽、营养丰富均衡,减肥和素食者食源、抗氧化、提高免疫力。
As a full-nutrition vegetable protein peptide powder, it has rich nutrition so that it is a good food source for weight-loss people and vegetarians. What's more, you can also use it to improve the acid-based balance, protect cardiovascular and improve your immunity. In addition, it has benefits in anti-oxidation.

核桃肽粉 Walnut Peptide Powder

增强记忆力,安眠消除疲劳、延缓大脑衰老、健脑益智、美容抗氧化、抗炎抑菌,提高免疫力。
This product has extraordinary effects in improving the study ability. In general, it can improve your memory, and somehow benefit your study. At the same time, it could reduce the blood pressure, prevent the Alzheimer's disease, as well as improve your immunity, such that it is a good choice if you are looking for a supplement to your health. In addition, it also has the ability of anti-inflammatory and bacteriostatic.

小米低聚肽粉 Millet Peptide Powder

健脾和胃,补益虚损,具有抗氧化、抗疲劳、免疫调节作用。
Millet Peptide Powder is a good choice to improve your immunity. It has strong immunomodulatory effect and anti-oxidant effect. Also, it can benefit your overall immune system through promoting cellular immunity and significantly strengthening the phagocytes.

Customized Market Service Scheme

Service Introduction 服务介绍

生产技术 Production Technology

严选优质原料

Strict selection of high-quality raw materials

寻遍全球优质原料种植基地，通过严格的工厂审核、质量评估和财务分析，选择优质供应商。根据目标市场的相关法规和客户需求，确定并筛选适合的产品质量标准。特聘农业专家全程管理与把控，采用现代生物组培技术及生态立体农业模式，确保原料优质、绿色、纯天然。

The company has searched the global high-quality raw material planting base, through strict factory audit, quality evaluation, and financial analysis, select high-quality suppliers. According to the relevant laws and regulations and customer needs of the target market, determines and screens the appropriate product quality standards.

The firm employed agricultural experts to manage and control the whole process and adopts the modern biological tissue culture technology and the ecological three-dimensional agricultural mode to ensure that the raw materials are high-quality, green and natural.

GMP包装车间

GMP Packaging Workshop

拥有先进生产设备、精密的检测仪器。坚持清洁生产，保证“绿色因子”全线贯穿在产品的设计、生产过程、生产环境等各个方面。

It has the advanced production equipment and precise testing instruments. Adhere to cleaner production, the company ensures that "green factor" throughout the product design, production process, production environment, and other aspects.

世界级生产标准 World-class production

生产线通过了国际ISO9001质量管理体系、HACCP食品安全管理体系认证，产品质量符合国际法规标准。

The production line has passed the international ISO9001 quality management system and HACCP food safety management system certification. The product quality is in accordance with international standards.

国际化量产能力 International capacity for mass production

具备年加工原料2000吨、生产小分子肽500余吨的生产能力。

It has an annual production capacity of 2000 tons of raw materials and more than 500 tons of small molecular peptides.

自动化生产车间 Automatic Production Workshop.

自建小分子肽自动化生产车间，拥有小分子肽自动化生产线2条、专用提取设备2套以及1000吨级储藏冷库1座。

The company built its own small molecular peptide automation production workshop, with two small molecular peptide automation production lines, two sets of special extraction equipment and a 1000-ton storage cold storage.

◆ Customized Market Service Scheme

◆ 12道工艺精粹 12 craftsmanship essence

坚持创新科技,打造了12道安全生产工序,力求最大限度提取原料中有效的营养元素,将其转化为更易吸收的优质营养物质。Adhere to innovation and technology, the company creates 12 production safety processes, strives to maximize the extraction of effective nutritional elements from raw materials, and transforms the extracted nutrients into higher quality nutrients that are easier to absorb.

泓九·原生肽
HONINE'S PEPTIDE
品质铸就品牌

博士研究生实习基地

为全面贯彻落实国家高等学校创新能力提升计划,以及“科教融合、协同育人”的战略决策,充分发挥一流企业与“双一流大学”的优势。以高水平科学研究支撑高质量高等教育,加快拔尖创新人才的培养,泓九集团山西原生肽科技有限公司联合太原理工学院共同成立博士研究生实习基地。

Doctoral student practice base

In order to fully implement the national higher education innovation capacity promotion plan and the strategic decision of "science and education integration and collaborative education", give full play to the advantages of first-class enterprises and "double first-class universities". To support high-quality higher education with high-level scientific research and accelerate the training of top-notch innovative talents, hongjiu group shanxi native peptide technology co., ltd. and taiyuan institute of technology jointly established a doctoral student internship base.

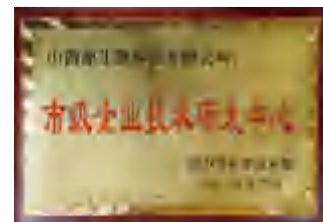

中国诚信供应商

山西原生肽科技有限公司在由国家商务部和国资委授权的2018年重点企业信用评选的活动中,通过了管理水平、经营方针、客户满意度调查、规范生产等方面的审核。凭借安全规范的原材料生产及优秀的社会美誉度,最终获得国家级“中国诚信供应商”荣誉称号。并通过中国商务信用平台、全国行业信用公共服务平台公示。

Honest supplier in China

Shanxi protopeptide technology co., ltd. has passed the review of management level, business policy, customer satisfaction survey, standardized production and other aspects in the credit evaluation activities of key enterprises in 2018 authorized by the ministry of commerce and sasac. By virtue of the safety standard of raw material production and excellent social reputation, we won the title of "China's honest supplier". And through the Chinese commercial credit platform, the national industry credit public service platform publicity.

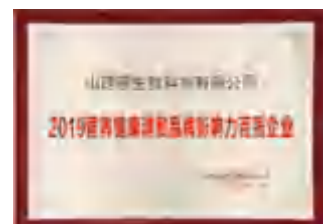

市级企业技术研发中心

2019年1月29日晋中市科技局授予山西原生肽科技有限公司“市级企业技术研发中心”荣誉认证。此荣誉是对山西原生肽科技有限公司多年来不断投入创新研发力量的充分肯定,也标志着公司在科技创新能力、产品研发等方面巨大的潜力和竞争优势,同时体现了公司注重科技投入和技术创新方面的持续发展。

Municipal enterprise technology research and development center

On January 29, 2019, jinzhong science and technology bureau awarded shanxi native peptide technology co., LTD. "municipal enterprise technology research and development center" honorary certification. This honor is a full affirmation of shanxi native peptide technology co., LTD. 's continuous investment in innovation and r&d over the years. It also marks the company's great potential and competitive advantage in scientific and technological innovation, product r&d and other aspects.

2019营养健康消费品牌影响力百强企业

在由中国保健协会主办,中国保健协会食物营养与安全专业委员会承办,消费日报消费观察办公室协办的“2019年第二届中国营养健康产业企业家年会(NHEC)”上,山西原生肽科技有限公司被评为“2019营养健康消费品牌影响力百强企业”,这是对泓九产品生命质量及诚信服务的肯定。

Top 100 enterprises with brand influence of nutrition and health consumption in 2019

By the Chinese health care association, China association of health food nutrition and safety professional committee member will undertake, daily consumption observed in collaboration with the office of "2019 the second China nutrition health industry entrepreneurs convention (NHEC)", shanxi native peptide family technology co., LTD., was named the "top 2019 nutrition health consumer brand influence enterprises", this is the life quality of acquisitive nine products and sincere service.

2019活性肽产业最具影响力品牌

2019年11月,山西原生肽科技有限公司在由中国保健协会主办,中国保健协会食物营养与安全专业委员会承办,消费日报消费观察办公室协办的“2019年第二届中国营养健康产业企业家年会(NHEC)”上,被授予“2019活性肽产业最具影响力品牌”称号,彰显泓九原生肽的品牌价值和行业领导地位。

The most influential brand in the 2019 active peptide industry

In November 2019, shanxi native peptide technology co., LTD. In primary health care association of China, the Chinese health association professional committee of food nutrition and safety to undertake, daily consumption observed in collaboration with the office of health industry enterprises "in 2019 the second China convention (NHEC)", was awarded the "2019 active peptide industry's most influential brand" title, carry forward the brand value of the nine native peptide and industry leadership.
